Subject: Notification per PRN 98-10 – Minor label modifications
Product Name: Baquacil Algicide
EPA Registration Number: 1258-1264
Application Date: January 28, 2019
Decision Number: 548086

Dear Ms. Holcombe:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you have any questions, you may contact Tara Flint via email at flint.tara@epa.gov or Eric Miederhoff at Miederhoff.eric@epa.gov.

Sincerely,

A handwritten signature in blue ink that reads "E. Miederhoff".

Eric Miederhoff
Product Manager 31
Regulatory Management Branch I
Antimicrobials Division (7510P)
Office of Pesticide Programs

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

KEEP OUT OF REACH OF CHILDREN

CORROSIVE: Causes irreversible eye damage and skin burns. Do not get in eyes or on clothing. Wear protective eyewear (goggles, face shield, or safety glasses), protective clothing, and rubber gloves. May be fatal if swallowed. May be harmful if absorbed through the skin. Wash thoroughly with soap and water after handling and before eating, drinking, and using tobacco. Remove contaminated clothing and wash before reuse.

{Environmental hazards statement for end-use products in containers less than 5 gallons (liquid) use only the first sentence. All others use the full paragraph.}

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination Systems (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS: Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

Pesticide Storage: Store in original container in an area inaccessible to children and persons unfamiliar with this products use. Keep this product in a tightly closed container when not in use.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Disposal:

{Residential Use}

Non refillable container. Do not reuse or refill container. Clean container promptly after emptying. Wrap bottle and put in trash or offer for recycling if available.

{Commercial Use/NonResidential}

Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Then offer for recycling if available or puncture and dispose in a sanitary landfill or by other procedures approved by state and local authorities. Follow pesticide disposal instructions for rinsate. If not triple rinsed, these containers are acute hazardous wastes and must be disposed in accordance with local, state and federal regulations.

Store in original container in an area inaccessible to children and persons unfamiliar with this product's use. Keep from freezing.

SPILL OR LEAK PROCEDURES

Small spills may be mopped up, flushed away with water, or absorbed on some absorbent material and incinerated.

FOR INFORMATION ON SPILLS, CALL 1-800-654-6911.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SWIMMING POOLS

[For best results follow a weekly program with your BAQUACIL System [brand] [products]]. [Take a pool water sample to your authorized [BAQUACIL] [brand] dealer regularly for a detailed water analysis.]

This product must be added directly into the water with the filter pump running. Swimmers or bathers must wait 15 minutes before re-entry.

INITIAL DOSE: Add 5 1/4 fluid ounces [BAQUACIL ALGICIDE] [product name] per 10,000 gallons of pool water.

Initial dose is used when filling pool or upon conversion to [BAQUACIL ALGICIDE] [product name]. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

For persistent algae or slime producing microorganism growth, add 5 – 7 1/2 ounces of [BAQUACIL ALGICIDE] [product name] per 10,000 gallons of pool water into the skimmer with the filter pump running. After one minute, shut off the pump and allow the system to remain off overnight. The following day, restart the filter pump and add 5 - 7 1/2 ounces of [BAQUACIL ALGICIDE] [product name] to the pool. Run the filter continuously for 24-48 hours, brushing the sides and bottom of the pool frequently.

MAINTENANCE DOSE: Add 1 1/4 fluid ounces [BAQUACIL ALGICIDE] [product name] per 10,000 gallons of pool water. Maintenance dose should be added weekly. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently. Maintenance dose should be added after a heavy or prolonged rainfall. If make-up water is added at the rate of more than 10% per week of pool capacity, add 1/2 fluid ounce [BAQUACIL ALGICIDE] [product name] for each 1,000 gallons of fresh make-up water added.

Winterization:

When swimming season is over, add initial dose prior to closing pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

For use with the [poolife® Exclusive Pool Care Collection [NST] Prime™][brand name] System

Use with the [poolife® Exclusive Pool Care Collection [NST] Prime™][brand name] System

The [poolife® Exclusive Pool Care Collection [NST] Prime™][brand name] system consists of [poolife® Exclusive Pool Care Collection [NST] Prime™][product name] non-stabilized tablet, [poolife® Exclusive Pool Care Collection [NST] Purge™][product name] shock oxidizer and [poolife® Exclusive Pool Care Collection [NST] Patrol™][product name] algaecide. These products have been formulated to work together to create clean, clear sparkling pool water without [the risk of overstabilization] [adding too much unwanted Cyanuric acid].

[poolife® Exclusive Pool Care Collection [NST] Patrol™][product name] algaecide efficiently reduces green and black algae¹ growths in pools. It will not foam, harm pool surfaces or equipment and it's compatible with most other pool chemicals.

Designed for use with [poolife® Exclusive Pool Care Collection [NST] Prime™][product name] non-stabilized tablet and [poolife® Exclusive Pool Care Collection [NST] Purge™][product name] shock oxidizer as part of the [poolife® Exclusive Pool Care Collection [NST] Prime™][brand name] system, this product will give you clean, clear, sparkling pool water without [the risk of overstabilization] [adding too much unwanted Cyanuric acid].

[WHY USE THIS PRODUCT:]

This product was created for use with the [poolife® Exclusive Pool Care Collection [NST] Prime™][brand name] [system].
